I am an XM radio subscriber and as such want to express my disgust at the possibility of loosing access to local traffic and weather because of objections by National Association of Broadcasters (NAB). I commute in the DC metro area and am constantly facing traffic back-ups. I utilize the local traffic channel at least twice a day and feel that since I pay for the service it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I deserve!
